sustainability report and presentation:

http://www.muenchenerhyp.de/de/meta/nachhaltigkeit/leitbild/index.html

Date of information: 31/08/2014

^{*} MünchenerHyp is one of the three "Industry Leaders" in the sector Financials/Mortgage & Public Sector Finance (57 companies)

Sustainability as competitive factor

Refinancing

- sustainability as investment criteria
- extension of MünchenerHyp investors' basis

Market potentials

- demographic and climate change
- new market opportunities: ecological and social real estate financing

4 reasons for sustainability management

Employees

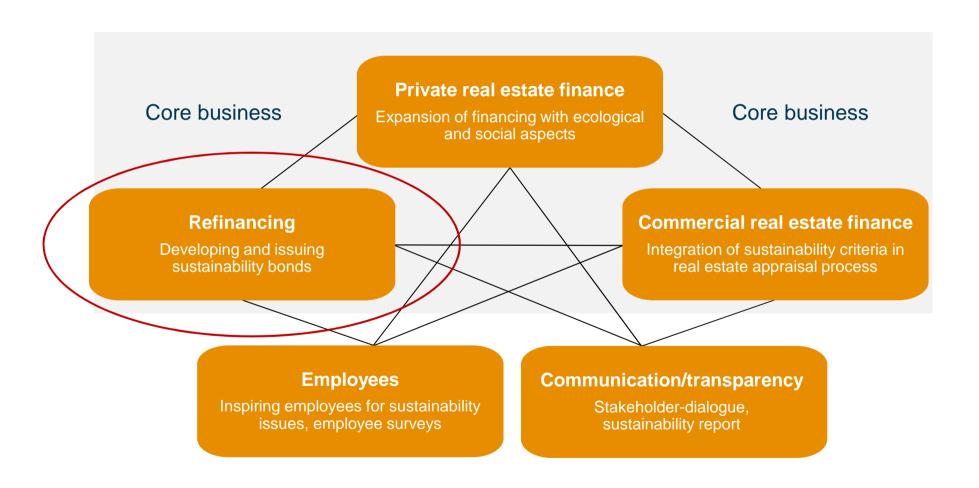

- increasing attractiveness as employer
- importance of ecological and social issues for employees

Reputation

- new expectations of different stakeholders
- ignoring such expectations: risk of loosing reputation

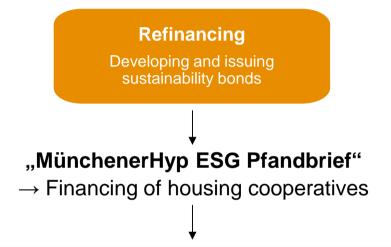

Core areas for the future

Sustainable refinancing

In line with Green Bond Principles (GBP)

"The GBP recommend concrete process and disclosure for issuers which investors, banks, investment banks, underwriters, placement agents and others may use to understand the characteristics of any given Green Bond." The GBP have four components:

- 1) Use of Proceeds
- 2) Process for Project Evaluation and Selection
- 3) Management of Proceeds
- 4) Reporting

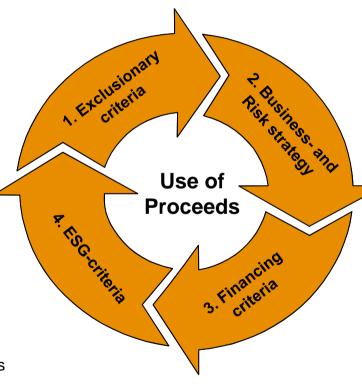

1. Use of Proceeds

Exclusionary Criteria:

- controversial business areas
 - alcohol
 - gambling
 - military weapons
 - pornography
 - tobacco
 - · uranium mining

Possible ESG-Criteria:

- socially responsible rental structures and user-friendly bulding constructions
- permanent right of residence for tenants
- democratic structures
- avoidance of speculation in housing, rents and vacancies
- sustainable construction and energy efficient refurbishments as per KfW standards

• MünchenerHyp business and risk strategy:

- partner for the German cooperative banks for providing the full spectrum of residential and commercial property financing
- consideration of borrowers default risk, market price risk, liquidity risk, operational risks and risk-bearing potential

Financing criteria for commercial real-estate:

- completed, good state of maintenance properties
- good located objects with positive prognosis for the future
- Comfortable Debt Service Coverage (ISCR/DSCR)
- suitability for third party use of the property
- First-ranking financing

1. Use of Proceeds

- Financing of housing cooperatives that provide private and affordable residential property for their members
- Current coverage capital: 471,653,285 € (663 loans)

Sizes

Sizes of cooperative loans			30.06.2014

2. Project Selection Environment, Social, Governance

Sustainability criteria

2. Project Selection Social criteria

Social purpose

- Social purpose deep-rooted in cooperative statutes: provision of good, secure and social residential property for the cooperative's members
- No profit orientation, no speculation within housing business

Social character of housing cooperatives deep-rooted in cooperative statutes

Social renting levels

- Renting levels must be consistent with cooperative principles
- Average renting levels of housing cooperatives lower than general rent indexes in particular German regions (overall: 5.32 €/m² compared to 6.73 €/m²)*

Permanent right of abode

- Receiving a cooperative residence automatically leads to a member's permanent right of abode
- Life-time right of abode guarantees protection against eviction much more than common legal protection

Democratic principle

- Cooperative participation in decision making → "one man, one vote": independent of the number of shares, all members have only one vote
- No dominant member who is able to enforce a profit-orientated residential policy e.g.

^{*} Calculation based on values of 10 housing cooperatives with highest MünchenerHyp loans

2. Project Selection Economic criteria

Little vacancy

Average vacancy rates of MünchenerHyp's financed housing cooperatives: 1.15%*

Very little vacancy compared to nationwide average: 3.3%**

High equity ratios

High equity ratios (Ø 36.2%*) of housing cooperatives: low-risk and responsible business policy

Consistency with MünchenerHyp's business strategy: low-risk real estate financing

Low Loan to Values

Coverage capital in € divided in LTV-classes					
LTV	< 30%	30% - 60%	> 60%		
Coverage capital €	54,245,186	417,408,099	106,315,970		

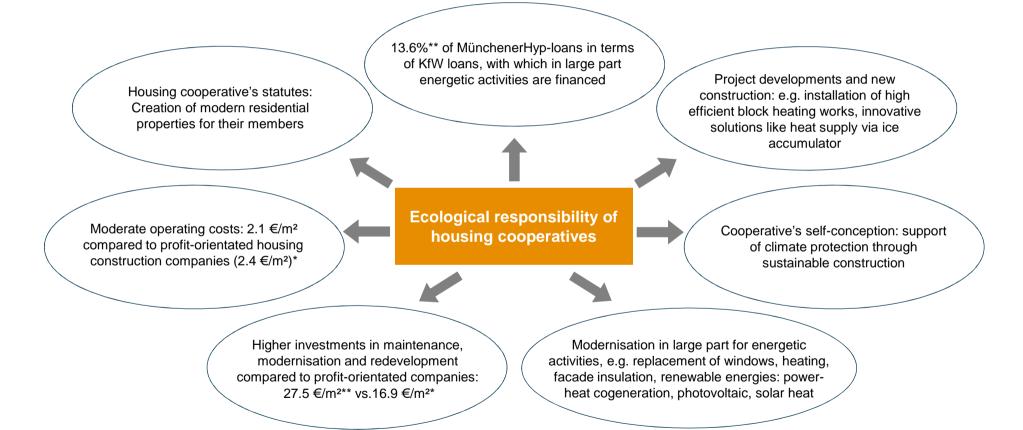

Security for housing cooperatives, MünchenerHyp and investors based on long-term and solid financing structure

2. Project Selection Ecological criteria

** Calculation based on values of 10 housing

cooperatives with highest MünchenerHyp loans

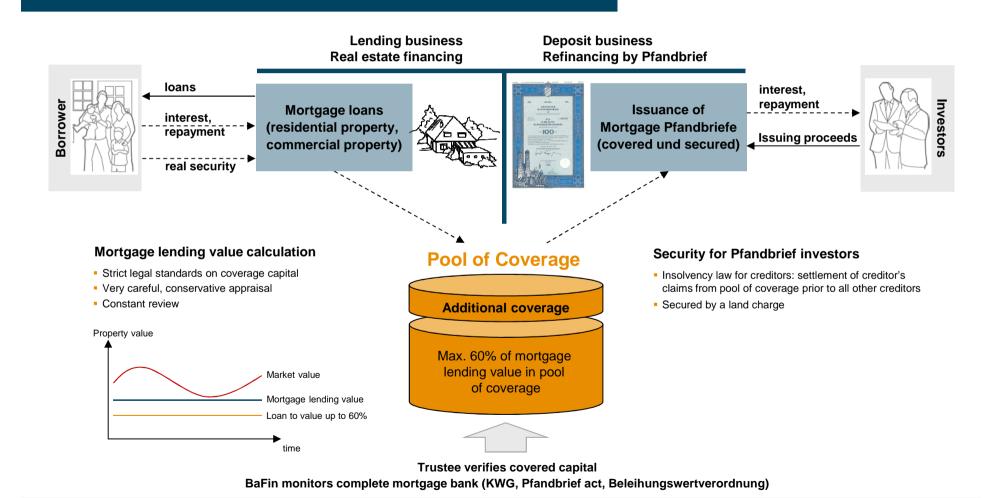

ESG Pfandbrief

* Calculation based on values of 3 biggest construction

companies (GmbH, AG, SE) in Germany

3. Management of Proceeds Sustainable refinancing by Mortgage Pfandbrief

3. Management of Proceeds Ring fencing

Mortgage cover pool:

- Complete issuing volume already used for loans to housing cooperatives and in pool of coverage*
 - → "Investors immediately invested into socially important loans"

Ring fencing:

- Financing of housing cooperatives again in the future
- Annual planned new loans for housing cooperatives: EUR 50 -100 millions
 - → EUR 300 millions reached within 3 years at the earliest, 6 years at the latest

^{*} Special regulations of Pfandbrief act determine that the Mortgage cover pool cannot be separated → issuing volume cannot be immediately assigned to individual financing. It relates to entirety of cover assets within the cover pool.

4. Reporting Public disclosure

- Constant information on ESG Pfandbrief: MünchenerHyp-website and investor presentation
- Quarterly update on cooperative mortgage loans (re-)financed with ESG Pfandbrief: amongst others cooperative's duration, regional structure, LTVs (concentration on § 28 Pfandbrief act)
- Independent supervision through trustee and "second opinion" through rating agency oekom research ("verification statement") on ESG Pfandbrief and therefore identified data

Second Party Opinion

- oekom research commissioned by MünchenerHyp to assist its first ESG Pfandbrief
- use of proceeds is refinancing of loans to housing cooperatives

Sustainable Pfandbrief
 Framework as structure for sustainability quality verification – i.e. the social and environmental added value

- defining a framework concept with social and environmental criteria
- compliance check with criteria and the use of granted loans
- checking Münchener
 Hypothekenbank eG's
 sustainability performance

- socially added value by providing affordable and user-friendly housing
- environmental criteria should ideally be given greater consideration in the future

oekom research

"this ESG Pfandbrief is a product which can be assessed as positive from a sustainability point of view"

Benefits for investors

- Aspects for socially important loans to housing cooperatives:
 - Funding and support for non-profit-oriented and democratically managed housing organisations in Germany
 - Socially responsible rental structures
 - Permanent right of residence for the tenants
 - Creation/provision of affordable housing
 - User-friendly building construction
 - Energy efficiency
- Prime rating and Second Party Opinion from oekom research
- Growth of an ESG bond market
- Further development of sustainability standards
