

Announcement: Moody's assigns Aaa rating to Muenchener Hypothekenbank's mortgage covered bonds

Global Credit Research - 03 Sep 2010

Frankfurt am Main, September 03, 2010 -- Moody's Investors Service has today assigned a definitive long-term rating of Aaa to the mortgage covered bonds (Hypothekendarlehenbriefe or covered bonds) issued by Muenchener Hypothekenbank (the issuer), which are governed by the German Pfandbrief Act.

RATINGS RATIONALE

A covered bond benefits from (i) a promise to pay by the issuer (rated A1); and (ii) in the event of default of the bank supporting the covered bonds, the economic benefit from a pool of collateral (the cover pool). The ratings of the covered bonds take into account the following factors:

(i) The credit strength of the issuer (rated A1/ Prime-1).

(ii) The credit quality of the assets securing the payment obligations of the issuer under the covered bonds. As of 31 March 2010, the assets in Muenchener Hypothekenbank's cover pool amounted to EUR15.7 billion. The vast majority of the cover assets are residential and commercial mortgage loans. The remaining part of the cover pool are so-called further cover pool assets (Weitere Deckungswerte), which are claims against banks and financial institutions.

(iii) The strength of the German legal framework. There are a number of strengths in the German Pfandbrief legislation, these include inter alia the regulatory requirement for the issuer to maintain 2% over-collateralisation on a stressed present value basis. The issuer is also required to cover potential liquidity gaps over the next 180 days between payments expected to be received under the cover pool assets and the payments due under the outstanding covered bonds.

(iv) 16.5% over-collateralisation on a present value basis, which Moody's considers to be "non-committed" over-collateralisation. The minimum over-collateralisation level that is consistent with the Aaa rating target is 15.5%. The total level of over-collateralisation currently in the cover pool is 18.9% on a present value basis (as of 31 March 2010).

For Muenchener Hypothekenbank's mortgage covered bonds, Moody's has assigned a TPI of "Probable-High".

The Aaa rating assigned to the existing covered bonds is expected to be assigned to all subsequent covered bonds issued by the issuer under this programme and any future rating actions are expected to affect all such covered bonds. Should there be any exceptions to this, Moody's will in each case publish details in a separate press release.

The rating assigned by Moody's addresses the expected loss posed to investors. Moody's ratings address only the credit risks associated with the transaction. Other non-credit risks have not been addressed, but may have a significant effect on yield to investors.

KEY RATING ASSUMPTIONS/FACTORS

Covered bond ratings are determined after applying a two-step process: expected loss analysis and TPI framework analysis.

EXPECTED LOSS: Moody's determines a rating based on the expected loss on the bond. The primary model used is Moody's Covered Bond Model (COBOL) which determines expected loss as a function of the issuer's probability of default, measured by the issuer's rating of A1, and the stressed losses on the cover pool assets following issuer default.

The Cover Pool Losses for this programme are 21.8%. This is an estimate of the losses Moody's currently models in the event of issuer default. Cover Pool Losses can be split between Market Risk of 16.6% and Collateral Risk of 5.2%. Market Risk measures losses as a result of refinancing risk and risks related to interest rate and currency mismatches (these losses may also include certain legal risks). Collateral Risk measures losses resulting directly from the credit quality of the assets in the cover pool. Collateral Risk is derived from the Collateral Score which for this programme is currently 7.5%.

TPI FRAMEWORK: Moody's assigns a "timely payment indicator" (TPI) which indicates the likelihood that timely payment will be made to covered bondholders following issuer default. The effect of the TPI framework is to limit the covered bond rating to a certain number of notches above the issuer's rating.

SENSITIVITY ANALYSIS

The robustness of a covered bond rating largely depends on the credit strength of the issuer.

The number of notches by which the issuer's rating may be downgraded before the covered bonds are downgraded under the TPI framework is measured by the TPI Leeway. Based on the current TPI of Probable-High the TPI Leeway for this programme is 2 notches, meaning the issuer rating would need to be downgraded to Baa1 before the covered bonds are downgraded, all other things being equal.

A multiple notch downgrade of the covered bonds might occur in certain limited circumstances. Some examples might be (a) a sovereign downgrade negatively affecting both the issuer's senior unsecured rating and the TPI; (b) a multiple notch downgrade of the issuer; or (c) a material reduction of the value of the cover pool.

For further details on Cover Pool Losses, Collateral Risk, Market Risk, Collateral Score and TPI Leeway across all covered bond programmes rated by Moody's please refer to "Moody's EMEA Covered Bonds Monitoring Overview", published quarterly. These figures are based on the most recent Performance Overview published by Moody's and are subject to change over time.

RATING METHODOLOGY

The principal methodology used in rating the issuer's covered bonds is "Moody's Rating Approach to Covered Bonds" published in March 2010. Other methodologies and factors that may have been considered in the rating process can also be found on the Moody's website. In addition, Moody's publishes a weekly summary of structured finance credit, ratings and methodologies, available to all registered users of our website, at www.moody's.com/SFQuickCheck.

REGULATORY DISCLOSURES

Information sources used to prepare the credit rating are the following: parties involved in the ratings, parties not involved in the ratings, public information, confidential and proprietary Moody's Investors Service's information.

Moody's Investors Service considers the quality of information available on the issuer or obligation satisfactory for the purposes of maintaining a credit rating.

The rating has been disclosed to the rated entity or its designated agents and issued with no amendment resulting from that disclosure.

Moody's Investors Service may have provided Ancillary or Other Permissible Service(s) to the rated entity or its related third parties within the three years preceding the Credit Rating Action. Please see the ratings disclosure page www.moody's.com/disclosures on our website for further information.

All information contained herein is obtained by MOODY'S from sources believed by it to be accurate and reliable. Because of the possibility of human or mechanical error as well as other factors, however, all information contained herein is provided "AS IS" without warranty of any kind. MOODY'S adopts all necessary measures so that the information it uses in assigning a credit rating is of sufficient quality and from sources Moody's considers to be reliable, including, when appropriate, independent third-party sources. However, MOODY'S is not an auditor and cannot in every instance independently verify or validate information received in the rating process. Under no circumstances shall MOODY'S have any liability to any person or entity for (a) any loss or damage in whole or in part caused by, resulting from, or relating to, any error (negligent or otherwise) or other circumstance or contingency within or outside the control of MOODY'S or any of its directors, officers, employees or agents in connection with the

procurement, collection, compilation, analysis, interpretation, communication, publication or delivery of any such information, or (b) any direct, indirect, special, consequential, compensatory or incidental damages whatsoever (including without limitation, lost profits), even if MOODY'S is advised in advance of the possibility of such damages, resulting from the use of or inability to use, any such information. The ratings, financial reporting analysis, projections, and other observations, if any, constituting part of the information contained herein are, and must be construed solely as, statements of opinion and not statements of fact or recommendations to purchase, sell or hold any securities. Each user of the information contained herein must make its own study and evaluation of each security it may consider purchasing, holding or selling. NO WARRANTY, EXPRESS OR IMPLIED, AS TO THE ACCURACY, TIMELINESS, COMPLETENESS, MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OF ANY SUCH RATING OR OTHER OPINION OR INFORMATION IS GIVEN OR MADE BY MOODY'S IN ANY FORM OR MANNER WHATSOEVER.

MIS, a wholly-owned credit rating agency subsidiary of Moody's Corporation ("MCO"), hereby discloses that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MIS have, prior to assignment of any rating, agreed to pay to MIS for appraisal and rating services rendered by it fees ranging from \$1,500 to approximately \$2,500,000. MCO and MIS also maintain policies and procedures to address the independence of MIS's ratings and rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold ratings from MIS and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at www.moodys.com under the heading "Shareholder Relations — Corporate Governance — Director and Shareholder Affiliation Policy."
